# MAN IS HELD IN BIG BOMB HUNT; EXPLOSIVES ARE FOUND IN RAID

## NO CHANCE GIVEN GERMANS TO PUBLICLY DEBATE TREATY; MUST PUT VIEWS IN WRITING

**Foe's Warships to Be Divided, but Britain and Japan Will Destroy Their Share—Treaty to Be Handed Germans Monday.**

PARIS, May 2.—The Germans will be given a maximum of fifteen days after presentation of the Peace Treaty to finally accept or reject the terms, it was learned from an authoritative source to-day.

While the date for presentation has not yet been definitely fixed it is expected to be Monday or Tuesday.

There will be no oral discussions between the Allied and German commissions. During the 15 days allotted to them, the enemy representatives may present proposals to the Allies in writing. Replies will be made in the same way. If the Germans present a proposal during the last few days of the period the Allies will have the right to exceed the 15-day limit in making a reply. But the Germans must complete the discussion among themselves, as well as at Weimar, and present all proposals within the time limit. These details of procedure have been definitely decided upon.

The Credentials Committee of the Peace Conference held a meeting to-day to examine the German credentials received at Versailles yesterday. There is no disposition on the part of the Allies and the United States to raise any questions regarding the competency of the Berlin Government to speak for the remainder of Germany.

Another meeting with the Germans on this question is improbable because the decision of the committee regarding verification and adequacy probably will be communicated to the Germans in writing.

Agreement has been reached regarding the disposition of the German fleet. Some of the capital ships will be given over to France and Italy; the others will be sent to the bottom of the sea. According to the tentative plan, Great Britain will get six dreadnoughts and five battle cruisers, which she will destroy. France will get and keep nine capital ships, and Italy five, while Japan will get three, to destroy them. America refuses to participate in the division, preferring to come out of the war without spoils of any kind.

The German destroyers and light cruisers will be divided among the smaller nations that participated in the war against the Central Powers.

## VICTORY LOAN GAIN HERE \$59,000,000; DRIVE HITS SPEED

Treasury Announces Unofficial Subscriptions in U. S. at \$1,500,000,000.

WASHINGTON, May 2.—Unofficial reports reaching the Treasury to-day indicated that \$1,500,000,000 has been subscribed to the Victory Loan.

Victory Loan subscriptions in the New York district showed an overnight gain of \$9,400,000, according to the official figures announced this afternoon.

The official total of subscriptions in this district is now \$22,781,000 or nearly 41 per cent. of the quota of \$1,550,000,000.

The subscriptions reported unofficially included one for \$8,000,000 by Hayden Stone & Co., bankers, by the Prudential Life Insurance Company for \$5,000,000; Lehman Brothers, \$2,000,000 and Wilcox, Peck and Hughes and allied interests, \$1,050,000.

In addition to these other large subscriptions were that of the New York Savings Bank for \$1,000,000; R. W. Gould, \$500,000; the American Surety Company, \$500,000; North River Savings Bank, \$500,000; Dime Savings Institution, \$150,000; Barber Steamship Lines, \$100,000; and the Aetna Life Insurance Company, the New York Consolidated Card Company, and the Orion Mills, \$50,000 each.

"New York will see it through"—this is a new motto adopted for the remainder of the campaign. It will be spread broadcast through the city and the district by posters and advertisements to stimulate the pride of citizens. Although the Government Loan organization for this district must raise \$117,546,800 every day now till May 10 to make up its quota of \$1,550,000,000, it does not despair and in spite of "blues" and unfavorable prognostications, every member of it believes that this loan, like the others, is going over the top.

Former U. S. Secretary of the Treasury McAdoo is expected to arrive here this afternoon to add more "go" to the local campaign by a series of speeches. Elihu Root is also expected to make an important speech on the loan at a rally and concert in the Metropolitan Opera House to-night. Good results are looked for too from the big "Panor-

## REDS GIVE UP BUDAPEST; ROUMANIAN KING TO ENTER; COMMUNISTS LOSE MUNICH

French Generals Accompany Ferdinand and Army Into Hungarian Capital

BAVARIAN TROOPS WIN.

Soviet Leaders Threatened Massacre of All Bourgeoisie in Munich.

VIENNA, May 2.—King Ferdinand of Rumania, accompanied by French Generals, is about to enter Budapest, the capital of Hungary, at the head of his troops, a Budapest despatch to the Neue Freie Presse says.

BUDAPEST, Thursday, May 1 (By sent to the Rumanian, Czech-Slovak and Jugoslav Governments, Bela Kun, the Foreign Minister of the Hungarian Communist Government, said that his Government "recognizes unreservedly the territorial claims which you put forward."

The Minister demanded the immediate cessation of hostilities, non-interference with Hungarian internal affairs and the reaching of economic agreements. Budapest despatches on Thursday stated that the Hungarian Government had asked the Rumanian and Jugoslav Governments for a cessation of hostilities, offering territorial concessions. The foregoing evidently refers to the official messages in this connection. Berlin newspapers yesterday published reports from Vienna that the Hungarian Government had been overthrown and that the Foreign Minister (Bela Kun), together with the War and Food Ministers, had arrived in Vienna.

PARIS, May 2.—Bavarian Government troops captured Munich from the Communists on Thursday morning, according to advices reaching here to-day.

BERLIN, Thursday, May 1.—The artillery fire of the German Government troops is audible in Munich and is constantly creeping nearer, according to private advices received from that city. The Government troops hold all the important points about Munich and are masters of the railroad communication in that region. The Red Guards are reported to be demoralized and to be plundering the banks. The Communists are threatening to massacre the Bourgeoisie when the Government forces attack the city, according to reports. The misery of the people is said to have reached an unbearable point.

GERMANY TO RUN ROADS.

System to Follow That Adopted by United States.

BERLIN, Thursday, May 1.—The Constitutional Committee of the National Assembly at Weimar has adopted a resolution providing that the entire railway system of Germany be taken over by the Government and that until April, 1921, the system adopted for this purpose will follow that employed by the United States in taking over the American railways. The representatives of Bavaria were the only objectors to the measure.

## CARSE ADMITS HE HIRED M'ADDOO TO GET "INSIDE" DATA

Testifies He Told Secretary's Brother to See Daniels and Other Officials.

NEWARK, May 2.—Henry R. Carse, President of the Electric Boat Company and the Submarine Boat Corporation, was cross-examined at length to-day before Vice Chancellor Lane concerning his relations with Malcolm Ross McAdoo, brother of William G. McAdoo, former Secretary of the Treasury. He was questioned by Robert H. McCarter, attorney for Elihu B. Frost, who is suing to have Carse removed as a voting trustee of the Electric Boat Company.

A witness had testified previously that Carse had declared he gave \$5,000 to Malcolm Ross McAdoo—\$3,500 for himself and \$1,500 "for his brother." This testimony was declared erroneous by Carse on direct examination.

McCarter asked Carse why he had employed M. R. McAdoo and Carse replied that it was because McAdoo made friends quickly. "When he (Malcolm Ross McAdoo) dropped into your office in an old suit of clothes and told you he was broke, was he down at the 'hoop'?" asked McCarter.

"I didn't notice," replied Carse. "It suddenly dawned upon you that this man in an old suit, whom you knew as a good operating and mechanical engineer, would be a good

## HAND GRENADES STOLEN BY BOYS AT TRENCH SHOW

Lives of Hundreds of Families Endangered By the Theft of High Explosives.

Warning that the lives of hundreds of New York families are endangered as the result of the theft last night by small boys of high explosives from the ammunition boxes of the Trench Warfare Show at Van Cortlandt Park was issued this afternoon by Lieut. Col. E. J. W. Ragdale, in charge of the performance.

White phosphorus hand grenades, rifle grenades and shells called "ducks," it is announced, were stolen by the hundreds during the heavy rainfall, although the field was guarded by seventy-five soldiers, forty policemen and 200 Boy Scouts. "Every one of these explosives," said Lieut. Col. Ragdale, "is a menace to the lives of the families in whose homes they might have been taken. It is the duty of every parent to learn whether any of these explosives have been brought into their homes and either render the explosives useless by burying, throwing them in water or notifying the Bureau of Combustibles to come after them."

Lieut. Col. Ragdale said that the theft was discovered at 8 o'clock last night by Capt. Samuel Wiley, the show's pyrotechnic expert, who saw about 300 boys crossing the parade ground from the direction of the ammunition boxes.

"He rounded some of them up and took away from three of the boys hand grenades and a Stokes shell," said Lieut. Col. Ragdale. "Investigation showed that the ammunition boxes had been sacked, and we have no idea of the number of high explosive shells taken away, although we know the number runs into the hundreds."

Souvenir hunters are blamed for the theft of the shells, many of which, Lieut. Col. Ragdale says have been picked up unexploded. These shells he added are dangerous.

"We caught one Boy Scout leaving the field with a gunny sack full of grenades and 'ducks,' any one of which would have been enough to have blown him to Kingdom Come," he said. "Other boys have told us their teachers have sent them here to collect these souvenirs."

Capt. E. Hordinal had a squad of soldiers out to-day collecting the unexploded shells to avert future danger of souvenir hunting.

The grenades were described as bell and cylindrical shaped, painted a lead color with the letters "W. T." painted on them in white.

## WILSON HIGHLY PRAISES LABORS' PLAN IN PEACE

Cables Tumult Programme Adopted at Paris Will Stabilize Conditions Throughout World.

WASHINGTON, May 2.—President Wilson sent the following cable to-day to Secretary Tumulty concerning the labor programme of the Peace Conference:

"Amidst a multitude of other things, the great step toward it is to be overlooked, and yet no other single thing that has been done will help more to stabilize conditions of labor throughout the world and ultimately remove the unhappy conditions which in too many places have prevailed. I particularly regard this as one of the most drastic and important steps of the conference."

## DRUG 'CURE' HIDING PLACE FOR MATERIALS LIKE THOSE USED BY 'REDS' IN 25 BOMBS

**Prisoner, Who Has Alias and Has Been Arrested Before, Tells Different Stories About Explosives—Paper Used in Wrapping Infernal Machines Traced to Makers Here.**

The hunt for the men who dropped into New York mail boxes the twenty-five or more infernal machines addressed to men in public life resulted to-day in the detention of one man for having large quantities of explosives in his possession and the finding of the manufacturer who made the green paper with which the bomb cartons were faced.

Charles L. Baldwin, alias Charles J. Pichel, proprietor of the "Baldwin Medical Institute" at No. 135 West 45th Street, was held this afternoon following the discovery of quantities of TNT, fuloid, nitroglycerine, nitrate of ammonia, smokeless powder and other explosives at the institute.

Detective Sergt. Gegan, who made the arrest, turned Baldwin over to Inspector Faurot in the rooms of the Bomb Squad at Headquarters.

After questioning Baldwin ten minutes Faurot, Gegan and two other detectives left Headquarters in a rush, jumped into a department automobile and drove away. Baldwin was left in Faurot's office under guard.

Faurot returned to Headquarters at 3.15. He had, he said, nothing to give out. In the meantime the physician employed by Baldwin arrived to tell whatever he knew about the explosives. Detectives said Baldwin had not been placed under arrest. He was, they said, "detained."

Baldwin's detention—he is not a physician, but he employed a licensed practitioner to give the institute standing—came about by accident. He had been visited by officers of the Narcotic Squad, city and Federal, and was arrested a day or two ago for drug peddling. It turned out that he had been arrested five years before for a similar offense, at that time under the name of Pichel, and was sentenced to the penitentiary for one year.

After Baldwin had been placed under \$2,000 bonds by United States Commissioner Hitchcock for alleged violation of the Harrison law, inspectors marvelled at the small amount of drugs they had found compared with the \$2,000 or \$2,500 worth Pichel (or Baldwin) had in 1914. They went back to-day to see if they had overlooked anything. They found the explosives.

THIRTY BOTTLES OF EXPLOSIVES ARE FOUND. The bottles were found in living quarters at the rear of the institute.

U. S. Sent Huge Quantities Since February—More Needed. America has sent more than 100 tons of clothing, shoes and medical supplies to the relief of suffering Serbia since February. Miss Slavko Grouitch, director of the Serbian Aid Fund, announced to-day.

The fund is appealing for money and clothing to carry on the work the rest of the year.

\$25 Men's Suit or Topcoat \$19.45. The "HUB" Clothing Corner, Broadway, corner Barclay Street (Opp. Woolworth Building), will sell to-day and Saturday, 2,000 men's and young men's suits, \$25 and \$30, and young men's suits, \$19.45 and \$25. Open Saturday night till 10. Hub Clothing, Broadway, corner Barclay Street.

PAPER USED IN PACKAGE MADE BY NEW YORK FIRM. The plain green basket-weave paper used as the inner wrapping of the bomb packages, the police learned to-day, was made by Louis Dejoncay & Co., Inc., of Nos. 69-75 Duane Street. The paper was intended to be used as a wrapping by jewelers and perfumers. Only a small quantity of it had found its way upon the market. The makers believe and
